

MURDER-ROBBERY

THUGS ROB JAPS OF \$5000

CLERKS IN BANK ARE BEATEN TO DEATH

Sensational Crime in San Francisco at Noon Today—Thieves Make Their Escape With Coin.

SAN FRANCISCO, OCT. 3.—ARMED WITH REVOLVERS AND PIECES OF GAS-PIPE, TWO ROBBERS ENTERED THE JAPANESE BANK, KIMMON GINKO, ALSO KNOWN AS THE GOLDEN GATE BANK, AT 1588 O'FARRELL STREET AT NOON TODAY AND AFTER PROBABLY FATALLY BEATING TWO CLERKS, ESCAPED WITH \$5000 IN GOLD.

CHOSE GOOD TIME.

THE ROBBERS CHOSE A TIME WHEN THERE WERE BUT FEW PEOPLE TRANSACTING BUSINESS IN THE BANK AND THE SENSATIONAL AND BOLD DEED WAS SO QUICKLY EXECUTED THAT IT WAS ALL OVER BEFORE THE CROWD OF PEOPLE PASSING THE DOORS OF THE INSTITUTION WERE AWARE OF WHAT HAD TAKEN PLACE WHILE ONE OF THE HOLD-UP MEN ENGAGED THE PAYING TELLER OF THE BANK, THE OTHER WALKED UP TO THE REAR OF THE BANK AND, GOING BEHIND THE COUNTER, PICKED UP A SACK CONTAINING \$5000.

THE ACTION OF THE THIEF WHO WENT TO THE REAR OF THE BANK WAS WITNESSED BY ONE OF THE BANK CLERKS WHO IMMEDIATELY RAISED A CRY OF ALARM.

STRUCK DOWN

THE SCREAM HAD SCARCELY LEFT HIS LIPS BEFORE HE WAS STRUCK DOWN BY THE MAN WHO WAS CARRYING OUT THE GOLD. THE THIEF, WHO HAD BEEN TALKING TO THE PAYING TELLER, DREW A PIECE OF GAS PIPE FROM HIS POCKET AND BEFORE THE BANKER COULD REACH FOR A REVOLVER, HIT HIM A BLOW THAT RENDERED HIM UNCONSCIOUS.

BOTH ROBBERS STOPPED LONG ENOUGH TO BEAT THEIR VICTIMS INTO UNCONSCIOUSNESS AND THEN WALKED LEISURELY FROM THE BANK AND DISAPPEARED.

CRIME DISCOVERED.

THE CRIME WAS NOT DISCOVERED UNTIL A MOMENT OR TWO LATER, WHEN SEVERAL CUSTOMERS CAME INTO THE BANK TO MAKE THEIR DAILY DEPOSITS. THEY WERE HORRIFIED TO FIND THE JAPANESE LYING PRONE ON THE FLOOR AND RUSHED OUT AND LOUDLY CALLED FOR HELP.

THE BANK WAS SOON FILLED WITH A CURIOUS CROWD. THE POLICE ARRIVED ON THE SCENE SHORTLY AFTERWARD. WHILE ONE OF THE OFFICERS WENT OUT TO CALL FOR AN EMERGENCY AMBULANCE, OTHERS RUSHED TO THE NEAREST POLICE BOXES AND TELEPHONE TO SEND RIOT CALLS INTO THE POLICE STATIONS.

BOTH WILL DIE.

THE SURGEONS AT THE HOSPITAL FOUND THAT THE TWO BANKERS HAD BEEN SO BADLY BEATEN THAT THEIR DEATHS MAY BE A MATTER OF BUT A SHORT TIME. BOTH ARE BELIEVED TO HAVE FRACTURED SKULLS AND ARE STILL UNCONSCIOUS.

IT WAS ABOUT 12:30 O'CLOCK WHEN THE ROBBERY OCCURRED. DESPITE THE FACT THAT THE POLICE IN EVERY PORTION OF THE CITY ARE NOW ON THE LOOKOUT FOR THE DARING THUGS, NOT THE SLIGHTEST TRACE HAS YET BEEN OBTAINED OF THEM.

LOOK OUT FOR CHINESE HOLD-UP

NEW HOLD-UP MAN IN TOWN.

He Carries a Pistol and He Is Doing Good Business in New Chinatown.

The latest criminal to make his appearance in this city is a Chinese hold-up man. The Celestial bod man works in about the streets running through the colony inhabited by people of his own race and thus far his victims have been Chinamen.

MERCHANT IS VICTIM.

Ming Ching, a Chinese merchant, living at 2 Jackson alley, was the first victim of the Chinese highway-man. The Celestial was turning the corner at Fourth and Harrison streets at an early hour this morning when he was accosted by the robber, who carried a revolver to intimidate his victims into delivering over their valuables.

TOLD TO KEEP QUIET.

When the Chinese merchant saw the shooting-iron flashed menacingly before his face he delivered over his coin to the hold-up man who then made good his escape, after admonishing his astonished victim to go home and keep quiet.

The police were notified of the theft immediately and officers were detailed to capture the novel highwayman, but no trace of him could be found.

FOOTPAD HAD THIS MAN ON THE RUN

**Told Chas. Johnson to Throw Up
His Hands or Die—Ran
for His Life.**

His fleet-footedness was all that saved Charles Johnson of 801 Campbell street from being held up at an early hour this morning. Johnson was on his way home about 3 a. m., when he was accosted by a stranger, who ordered him to throw up his hands.

This was too much for Johnson, and he started to run away. The highwayman followed for a few blocks, but was outdistanced by the fleeing Johnson.

Johnson reported the attempted hold-up to the police, but could not give a description of the would-be robber, as he did not wait long enough to take a good look at the man.

BOSSES WILL NOT GIVE THE WAGES

**Masters, Contractors and
Millmen Join Forces
Against Labor.**

In response to a call issued by the entirely in the hands of Business Agent Edward Thompson.

BUILDING TRADES COUNCIL.

A meeting of the Building Trades Council was held last night to consider the various phases of the strike situation. It was thought that the millmen's strike would occupy most of the time of the meeting, and that constructive action would be taken. On the contrary, the union officials are still in communication with the Mill Owners' Association. The members of the 'Trades Council' feel that the die is cast, and no further action is in order. They are apparently discouraged by the obdurate stand taken by the Mill Owners' Association, in closing their places, after the union had refused to arbitrate or compromise.

MILL OWNERS ENDORSED.

A resolution was adopted last night emphatically endorsing the action of the mill owners in refusing to grant the rise demanded by the Millmen's Union now on strike. The demands of the men were denounced as unjust.

At to-night's meeting of the Employers and Contractors' Association, representatives will be present from both the Mill Owners' Association and from the Millmen's Union, also from the Lumber Dealers, and the Independent Material Dealers' Association. The entire labor situation will be considered, in the hope of finding a solution for the difficulties. The Building Trades Council will probably not be officially represented.

CARPENTERS' UNION.

While the Carpenters' Union will send a committee, the most inviolate secrecy is presented. The matter rests with the Carpenters' Union. The principal fight before the meeting was the matter of forcing the Hod Carriers' Union, which struck several days ago in Berkeley, into affiliating itself with an international association. The hod carriers believe that, as they belong to the Laborers' Protective Association, and are governed by the Building Trades Council, and that the support of that body should be sufficient.

PRINCIPAL FIGHT.

The issue was vehemently opposed, and when a vote by acclamation was taken, it was defeated. This leaves the situation in Berkeley in the same unsettled condition. The members of the local are striking, while their places are being filled by members of the international association, claiming to be union men in good standing. It looks like a lockout as effectual as that of the striking millmen, although conditions are somewhat altered.

BATTLED TO DEATH IN WOMAN'S ROOM

**Man Who Played the Role of
Brother Is Shot Three
Times by Rival.**

NEW YORK, Oct. 3.—Herbert Patridge was shot three times today at the apartments of his sister, with whom he made his home, and probably will die. The shooting was done by Charles Johns, a stenographer, whose attentions to Mrs. Jennie Smith, who was known as Patridge's widowed sister, were objected to by Patridge. Coming home early today, Patridge found Johns in the apartments and in a rage seized a carving knife, with which he attacked Johns. In the struggle the knife blade was broken, but Patridge continued the attack. The sister, according to Mrs. Smith's story, Johns drew a revolver and fired three times, each bullet striking Patridge in the back. Johns disappeared after the shooting and Patridge was taken to a hospital, where his case was said to be critical. When Mrs. Smith was questioned in police court she told the magistrate that Patridge is not her brother, although she had introduced him as such. "He is a friend of the family, who used to live with us when my husband was with me," she told the court.

FRUITVALE HEARTILY GREETED CANDIDATE

Rousing Rally in Pavilion Addressed by Frank C. Jordan, Charles Thomas and Other Republicans.

Former county clerk and now clerk of the Supreme Court of California, Frank C. Jordan, whose popularity in Alameda gave him such pluralities, addressed the big Fruitvale Republican rally last night with the candidates on the Republican county ticket. Owing to the small halls in the neighborhood of Fruitvale, the meeting was held in Morgan's Park pavilion and the band and bonfire told all the residents of the neighborhood that the candidates were there to deliver their addresses. E. H. Marwedel was chairman and introduced the speakers. The building was gayly decked in the tri-color of France and the Stars and Stripes, and exploding bombs, national music and cheering made the occasion all that could be wished for. In addressing the meeting, Mr. Jordan said:

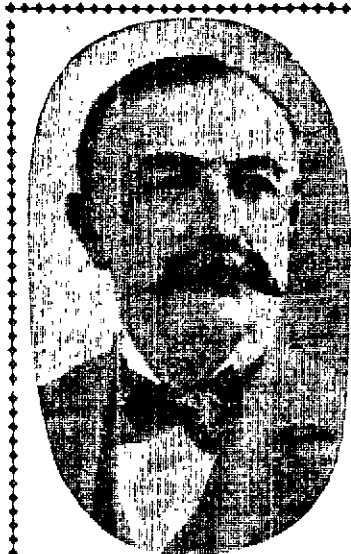

"I am not a candidate nor am I a politician (laughter). I am an agriculturist. When Markham wrote that grand poem and Millet drew that wonderful picture which inspired the verse, I hardly thought I would ever be a subject for such a figure. The last time I appeared before you it was with my dear friend Talcott. He is about to have a successor and I trust and hope the one will be as good a public man and as successful as the other."

"This county, in which I have lived for thirty-five years, is enjoying an unprecedented wave of prosperity, and while you are thinking of your own success, do not be blind to the success of the State and county affairs which are so close to you. You should stand by the records of the past and give the Hon. James N. Gillett a magnificent majority. You need not be ashamed of that man, James N. Gillett, you men of labor, who worked not eight hours a day but ten and twelve hours, and it was he who worked and voted for the eight-hour law. He is right, he is honest, and will be elected by one of the biggest majorities this State has ever seen."

PARDEE NAMED HIM.

"It seems like a dream to return to these surroundings and listen to the speeches of the candidates ranged about me on the platform. Back in 1894 I faced my constituency of Alameda County. I went to Hayward seeking the nomination for County Clerk, and some said I went in a barrel. At the convention a man in his shirt sleeves got up and nominated George C. Pardee. And then another man in his shirt sleeves arose and seconded the nomination, my friend and your next County Coroner, Dr. Tisdale. In 1895 I met your present County

STRICKEN IN SUISUN COURT 4 PERISH IN FIERY BLAST

W. H. CHICKERING.

W. H. Chickering Has an Attack of Heart Failure in Country Courthouse.

SUISUN, Oct. 3.—W. H. Chickering, a San Francisco attorney, was stricken with heart failure yesterday while before Judge Harrier. He was pleading in one of the Shelby Smelting Works' damage cases. He sank fainting in a chair. Friends rushed to his assistance and he rallied in a short time. He was able to return to San Francisco last night. In view of his illness the case was continued for ten days.

Judge Harrier adjourned court out of respect to the late Thomas H. Hyatt, who met his death in Oakland.

Eight Others Badly Injured When Casting Blows Out at Steel Furnace.

BALTIMORE, Oct. 3.—Four men were killed and eight others injured, two perhaps fatally, in an accident at the Maryland Steel Company at Sparrows Point today. Three of the dead are negroes. The victims were overwhelmed by a rush of flaming gas and coke from a hole in one of the blast furnaces, caused by the forcing out of its socket of a casting which holds the compressed air pipe. The men had just put in a new air pipe and the blast had been turned on about ten minutes when the accident occurred. The officials of the company, after an investigation, declared that no unusual conditions caused the accident. They were at a loss to account for it. No confusion occurred and the furnace was not damaged.

James Reilly, a shoemaker, 73 years old, fell down a flight of stairs in his home at 756 Eleventh street about 2 o'clock this morning and was brought to the receiving hospital in the police patrol. An examination of his injuries showed that he had only sustained a contusion of the right hip.

ROME, Oct. 3.—The Pope received today in audience the Right Rev. James A. McFaul, bishop of Trenton, N. J.

SEEKS LAND OF MRS. OELRICHS

Southern Pacific and Western Pacific Want Line at Dumbarton Point.

SAN FRANCISCO, Oct. 3.—Not only the Southern Pacific, but the Western Pacific as well, plans to effect an entrance into San Francisco from the Alameda county shore, by establishing an all-rail route via Dumbarton Point. If present plans prevail both the Harriman and Gould lines will cross the narrow neck of bay at that point by means of a trestle, but neither road will be able to accomplish its purpose until it has made terms with Mrs. Theresa Fair Oelrichs.

By a curious chain of circumstances the portions of both the Gould and Harriman roads, in so far as their Dumbarton Point plans are concerned, rest in the hands of Mrs. Oelrichs. When Senator Fair built the narrow gauge line to Santa Cruz he acquired extensive land holdings at various points along the line of the road. Including a tract of 400 acres extending from and including a portion of the townsite of Newark down to and including all of what is known as Dumbarton Point. The title to this immense tract now rests in the name of a land company organized by Senator Fair, the control of which has descended to Mrs. Oelrichs. A minority interest passed out of the hands of the Fair family and is now held by Charles Schlessinger of Oakland, but the control of the company, and its holdings of land around Dumbarton Point, remains with Mrs. Oelrichs.

MANY INJURED IN STRIKE RIOT

Freight Handlers Surround the Strike Breakers—Constable and Strikers Shot.

FORT WILLIAM, Ont., Oct. 3.—A number of armed striking freight handlers, Greeks and Italians, yesterday surrounded the Canadian Pacific Railway Company's boarding-house, in which were fifty strike-breakers. The boarding-house was defended by twenty company police. A number of shots were fired and the constable was wounded and several of the strikers were shot in the legs. After the trouble a reputation of strikers interviewed the Mayor. Later the strike was called off unconditionally.

TROOPS GUARD STRICKEN CITY

Victims of Gulf Storm in Pressing Need of Shelter.

MOBILE, Ala., Oct. 3.—Heavy rains along the lower part of the bay caused some interference today with the relief work, but all things considered, the situation is well in hand and all of the destitute are being cared for. Contributions are pouring in steadily from the citizens of Mobile and from outside points. Shelter for those whose homes were wrecked is the thing most generally needed and it is becoming evident that many of those who lost everything in the storm must have aid in rebuilding their homes.

Governor Jelks today made a trip to Coden and vicinity to institute further measures of relief.

Several bodies have been found floating in the lower bay, but they are believed to be those whose deaths have already been reported.

Excitement continues high over the attack on the jail last night, and the death of Roy Hoyle at an early hour this morning. Three companies of militia ordered here from Fort Deposit, Evergreen and Brewer today are now stationed about the city. Governor Jelks said today that while he did not apprehend any more trouble right now, he considered it wise to hold the troops here for some days to guard against contingencies.

MILWAUKEE, Wis., Oct. 3.—That Captain Frederick Pabst gave each of his children \$1,000,000 prior to his death because he wanted to be relieved of his business cares to a certain extent, and because he wanted to see that they would do with it, and how they would bear the responsibility, was the testimony of Henry Fink, collector of internal revenue, before Judge Carter in the county court yesterday. The proceedings were instituted to determine the amount of inheritance tax due the State.

VICTORY DUE TO AIR STUDY

American Balloonists in Paris Knew Just Where Fastest Currents Were.

PARIS, Oct. 3.—Lieutenant Frank P. Lahm, Sixth cavalry, winner of the balloon contest, and Major Hersey, his companion, arrived here from England this morning. Much of the Americans' success is attributed to Major Hersey's knowledge of meteorological conditions, obtained as the result of long service in the weather bureau at Washington.

Before the departure of the United States, the wing balloon, Major Hersey closely examined the latest weather reports and knew instantly that the heavier and faster outer currents would be at the lower surface and that the wind would gradually change their direction and carry the balloon northward toward England.

Consequently, while the rivals of the Americans vainly tested the upper strata, the latter remained close to the earth, their guide rope touching ground much of the time. Their judgment was vindicated by the fact that, although the United States was the twelfth balloon to start, it was the first to reach the English coast.

WINTHROP WILL GO TO CUBA

Magoon Sees President and Will Become Vice-Governor in Philippines.

WASHINGTON, Oct. 3.—After a talk at the White House with Governor Magoon today, the President reconsidered the plan he had formed last evening of sending the Judge to Cuba as civil governor and decided that in view of the fact that Secretary Taft had already taken up the subject with Beckman Winthrop, the present governor of Porto Rico, he would not interfere with the program. Consequently, Mr. Winthrop will be provisional governor of Cuba and Judge Magoon, after a short vacation, will, as originally planned, go to the Philippines as vice-governor and member of the Philippine commission.

GILLETT GREETED BY ENTHUSIASTIC THROG

Magnificent Reception Accorded to Republican Candidate for Governor at Red Bluff.

RED BLUFF, Oct. 3.—J. N. Gillett was given a magnificent reception on arriving yesterday from Redding. He visited the factories and mills and was received cordially, receiving many assurances of support. Bonfires blazed last night and the streets were thronged with people. The pavilion opera house was crowded to the doors by a great audience, and there was generous applause.

Judge Gillett was the first speaker and was given a genuine ovation. He said that in view of certain attacks he would leave his old neighbors and friends to decide whether he was a man of fitting principles to fill the position on the apple to bench he seeks.

Judge Hart of Sacramento made a telling speech and praised Judge Gillett and Judge Burnett. He came out strongly in favor of Gillett, and said the people made no mistake in placing him at the head of the Republican ticket, that he had been three in the State Senate and in Congress and had always been on the side of the people.

Judge Burnett said he was proud to be on the ticket with General Chapman and Judge Hart. He referred to the splendid record of Gillett and said that if anyone differed with him personally they must admire his rugged method and honesty.

GENEROUS WELCOME.

Gillett was given a generous welcome. His friends on Sacramento street, he said, avoided discussion of political issues. He said he did not care to be like the young man opposing him, who drew a line and said he would stand on the opposite side. He said he wanted to mingle with his fellow men and grasp their hands and have harmony.

John Hart of Sacramento, who has been in the campaign along high principles and with no vituperation.

Gillett said that if elected Governor he would favor a good road and improve the people are now so poor and in need of aid. He favors good roads and said the people are entitled to the best means of transportation.

The river and harbor committee recommended that \$25,000 be appropriated to build a second dam for the upper Sacramento river, to be expended at the discretion of the Secretary of War. This amount was actually appropriated by Congress. I informed several citizens of Red Bluff that this appropriation had been made, and that it was necessary to see Colonel Heuer, upon whose judgment the War department would act. I saw Colonel Heuer and spoke to him about it, and supposed that the citizens of Red Bluff and those interested in the navigation of the river would take up the matter with him, but I understand this has never been done. Colonel Heuer, in his conversation with me, stated that he thought the best thing to do would be to equip a boat or barge for pulling out stumps, start it at Red Bluff and set it afloat down stream with the current, removing the stumps as it proceeded.

REFUTES CHARGES.

He spoke strongly in favor of improving San Francisco harbor, and referred to his efforts in passing the rate bill, the most important bill of the session, and the law and the automatic coupon act. He refuted the charge that he had been against the laboring men and mentioned his support of the employers' liability act.

GILLETT RESIGNS SEAT.

REDDING, Oct. 3.—Governor Pardee will speak tomorrow morning at Redding. Gillett's resignation as Congressman from the First District, Gillett said in this city yesterday morning before taking the train for Red Bluff. "I shall withdraw my resignation as soon as I arrive in Red Bluff, and send one copy to Speaker Cannon of the House and another to Governor Pardee. That is the usual procedure in the case of a Representative in Congress for the unexpired term."

MADE INSANE BY BAD FALL

Charles Robles Suffers Severe Concussion, But Recovers in the Hospital.

Charles Robles, a boxmaker, living at 1604 Sixteenth street, was seized with a fit of epilepsy on Fifth street between Washington and Broadway yesterday afternoon and in falling struck his head heavily on the sidewalk. Deputy Sheriff Bert Brown and others brought him at once to the Receiving Hospital, as blood was flowing from his ears and he was delirious.

Upon reaching the hospital Robles went suddenly insane and fought like a demon. It required the services of four men to hold him on the operating table while another strapped him. Dr. Kofford made an examination of the man's injuries and stated that he had probably sustained a fractured skull.

The youth was then placed in a room in the insane ward, where he remained during the night, recovering sufficiently this morning to demand his liberty. It was granted, as his condition showed that the injury was undoubtedly concussion of the brain instead of a fractured skull.

PUGILIST HAS FACE TREATED BY SURGEON

Al Gordon, who fought a draw with Kid Lafayette at the West Oakland Athletic Club last night, received a bad cut over the eye in the last round and it required two stitches in the wound to close the gap. Gordon said that he was a boxing instructor and lived at Camp.

CAL MEN ON ROOSEVELT JR. MILITARY BASIS IS SUMMONED

Former Governor Magoon Thinks Laborers Must be Drilled in Companies.

WASHINGTON, Oct. 3.—Former Governor Charles E. Magoon of the Panama Canal, who has spent a good deal of time on the isthmus, has considerable confidence in the military basis of a laborer on the canal. He has organized a police force of these men and says they are efficient.

Much of the complaint that has been made against them as laborers, he thinks, is because they do not thoroughly understand American terms and the nature of articles in common use. He says that upon the whole they are intelligent and can read and write, being prolific letter writers, as he can testify by the many communications received from them.

They all begin their letters in the same way—"Your Excellency I have the honor to inform you that I am a British subject," etc. Judge Magoon says they are all proud of being subjects of Great Britain.

He believes that the method to be ultimately adopted in handling labor on the canal will be similar to that adopted by Kitchener when he advanced on Khartoum. The British general utilized African labor, but had it organized on a military basis.

Judge Magoon says that he does not think that negroes or other races should be under military discipline but that they should be organized in companies under the charge of competent officers in the army. He believes that a satisfactory system will result from this method.

ROOSEVELT JR. IS SUMMONED

Must be Witness at Roommate's Trial on Charge of Assaulting Officer.

BOSTON, Oct. 3.—Shaun Kelly of Fitchburg, the roommate of Theodore Roosevelt Jr., of Harvard, appeared in the municipal court today and pleaded not guilty of assault upon a police officer. At the request of his counsel the case was continued until October 10.

The charge against Kelly is based upon an incident which occurred on Boston common last Thursday night when Patrolman Freyer was knocked down by young men said to be Harvard students. Roosevelt and another student, Meredith Bladen, have been summoned to appear as witnesses in connection with the same case, which will be investigated tomorrow by the Suffolk county grand jury.

MARINE ENGINEER HAS UGLY WOUND

William Craig, a marine engineer on the Juteopole of London, came to this city from San Francisco yesterday and was at night a stupor-stricken and from Franklin street with an ugly wound in his scalp. It was apparent that the man had been drinking, according to the receiving hospital report, and little credit could be placed in his disconnected story of an argument.

FERRER RESIGNS AT TAFT'S REQUEST

PARIS, Oct. 3.—Dr. Ferrer, the Cuban representative here, has withdrawn his resignation at the request of Governor Taft.

POMONA PLAYS BOTH GAMES

To Meet Universities at Rugby and Then Change to Old Style.

BERKELEY, Oct. 3.—A unique plan has been adopted by Pomona College in the arrangement of its football schedule for this fall. Wishing to support California and Stanford in their stand for Rugby, the southern institution has agreed to play a match with each of the universities. Pomona will then abandon Rugby for the remainder of the year and organize a team to play the old game in its modified form.

Practice began last week and neither players nor spectators were enthusiastic over the game. The tendency to close play, which was shown by the California players during the first few weeks of training, seems to be one of the faults of the southern aggression.

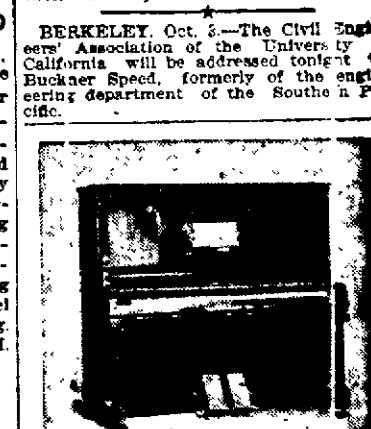

MAGAZINE STAFF IS ANNOUNCED

BERKELEY, Oct. 3.—O. M. Boyle and Alfred Wilder, respectively editor and manager of the Journal of Technology, the monthly magazine published by the engineering, scientific and agricultural students of the University of California, have announced the personnel of their staffs for the coming term. The editor will have the following assistants: J. L. Dobbins, managing editor; Roy Vorheis, representing the mining college, and Gus Meckfessel of the College of Civil Engineering. The managerial staff will include H. M. Hall and M. A. Grant.

LITTLE BOYS STOLE TOOLS

Were Building Castles When Police Found Them, But Made No Arrests.

BERKELEY, Oct. 3.—After looking for nearly three months for the robber who stole \$50 worth of tools from a house in course of construction at 1722 Hopkins street, the police have at last found the culprits. They are little Tim and Harry Murphy, 1317 Milvia street, respectively nine and six years old, who carried the tools away in the course of several nights the latter part of last July. Since that time the youngsters had been building all sorts of castles, fortresses and strawbridges, and were fast becoming skilled carpenters. They were apprehended by Officers Jamison and Young late at night. They made a full confession to Marshall Vollmer. After torturing them for a promise to be good in the future and to remember the Seventh commandment. Vollmer told them "to skip home."

INTERCEPTS A BOGUS CHECK

Japanese Presents Paper Filled Out With a Rubber Stamp.

BERKELEY, Oct. 3.—A bogus check and two strangers figured yesterday in a little banking incident which impressed Cashier Naylor of the First National bank, from the first as being decidedly shady.

The check had the firm name, Moore & Sheldon, printed across the end. It was drawn on their account, and their name, the check number, the date and the amount had been entered with a rubber stamp. The only handwriting was the endorsement of a Japanese on the back of the check. Cashier Naylor said that he could not cash a check drawn up in that manner and advised them to go over to Moore & Sheldon's and demand that the check be properly drawn up. The Japanese claimed that the check had been given them by a Japanese in payment for money owed them. Moore & Sheldon, however, disowned the check and denied all knowledge of the Japanese to whom it was made out. The check was finally started off with the expressed intention of going to Oakland to find the Jap who had given them the check.

Cashier Naylor hardly knows whether he frustrated an attempt to pass a badly drawn up bogus check or the strangers were really truthful in their representations.

\$17 DINNER FATE OF BROADWAY MASHER

NEW YORK, Oct. 3.—Margery Thompson, an actress who is forced to face the terrors of Broadway alone every evening, has devised a new way to sting the mashers who infest her path.

Miss Thompson was nervously trekking down through that section of mid-Manhattan that lies athwart the Hotel Astor, when one of the mashing fraternity came alongside and whispered insinuating phrases in her ear.

"I don't know you," said Miss Thompson, greatly agitated at such an unwarranted and brazen bit of effrontery. "Please go away and leave a poor working girl alone."

The masher would not leave her alone, and Miss Thompson called out, "Tom Benedict, who was hurrying by, to come to her assistance.

"Not me!" said Mr. Benedict. "The last time I assisted a young woman in distress she handed me over to a prize-fighter. You'll have to go it alone, Margie."

Then the masher, who had hidden behind a cab, grew brave again, and Miss Thompson, in her desperation, gave head to his advances.

"You may take me over to Rector's to dinner," said Miss Thompson, blue in the face and grew much less fervent in his declarations of regard for the young woman. There was no fire escape handy, however, so he trailed after her to the lobby.

There Miss Thompson ate and drank \$17 worth without deigning to notice the man on the other side of the table. There was nothing of conversation about the affair, and when she had finished her meal she said to him, "I don't have to excuse me for a moment. I left my purse in the theater."

Then while the young man scraped together all his loose change to pay the waiter she did a quick dash for Broadway and liberty.

LOCK THREAT ON BROADWAY

Crowd Grows Ugly When Man Attempted to Hold Boy for Policeman.

"Lynch him!" "Beat him over the head with your whip!" "Let the horse go!" were a few of the threats and comments shouted by a crowd at Fourteenth and Broadway at 5:15 o'clock last evening when A. L. Keeler, of 219 Thirteenth street, attempted to prevent Emil Puchon, an 18-year-old driver for J. G. Erick, a grover, at 1011 Seventh street, from making his escape. The affair threatened to assume serious proportions at one time but cool heads in the crowd counseled moderation and eventually assisted the youth in making his departure unharmed.

According to eye witnesses there is a difference of opinion as to whether the boy or man was to blame for the incident, which resulted in Keeler having his hand wheel of his rubber tired run about destroyed.

Keeler, who is a painter and paper-hanger and has a shop at 2483 Mission street, San Francisco, was driving north on Broadway when his progress was arrested near the MacDonough street intersection. He was being loaded with hay. He claims that he was forced to pull up sharply and that Puchon came up in his rear and tried to force his way into the runaway, causing the hand wheel to collapse.

Puchon states that Keeler backed the runaway into his vehicle and that he was right for it took the boy's part when the trouble arose.

Puchon started to drive off when Keeler, who was on the ground, leaped forward and grabbed the grover's horse by the bridle. He hung on to the reins and stated that he would not allow the boy to depart until a policeman arrived.

Officer 65, who is stationed at the crossing at the head of San Pablo avenue and Fourteenth street, was not on duty because he was absent in behalf of Officer Hodgins, looking in the various boarding houses in the vicinity for the detective's assassin.

As the minutes flew by and no officer made his appearance the crowd, which had by this time numbered some 200 persons, began to advise the detained youth to whip up his horse and escape. Acting under these instructions, Puchon did as he was told and lashed the animal with the whip. The horse reared and plunged but Keeler held on, which only served to anger the mob.

Another moment more and the spectators began to growl. Some one shouted "lynch him!" and that cry aroused the level headed men present to advise him to take the matter up with the boy's employer.

Keeler complied and allowed Puchon to continue his journey. This morning he was advised to demand damages from the grover believed the boy was in the right and refused to settle. A civil suit is expected to follow.

WALKS 80 MILES TO COURT; IS PARDONED

SEATTLE, Oct. 3.—A walk of eighty dreary miles through rain and mud, in obedience to the summons of the game warden to appear and answer to the charge of killing a pheasant out of season, is the experience of James Robinson.

Robinson, who was out hunting near Redmond with Paul Scott, shot a pheasant, the bullet finding no lodgment until he struck Scott in the head and almost instantly killed him. An investigation of the shooting by Coronar Carroll exonerated Robinson, as it developed that Robinson had exercised due caution before using his gun, and the underbrush was too thick for an object to be seen more than a few feet away.

As soon as Game Warden Relf learned of the killing of the bird he sent a summons to Robinson to make his appearance at the court house. This appearance at the court house was on Friday night. The next morning he set out for Seattle afoot, not having the price to pay his fare on the train. He arrived at the court house in the middle of the afternoon to find the game warden away for "hot day of forty miles."

Nothing daunted in his determination to account to the game warden for his misdemeanor in the shooting of the pheasant, Robinson again made the trip by foot yesterday.

This time his efforts were productive of better results, for when he arrived at the court house in the most bedraggled condition imaginable and told his story before the guardian of the bird family he was pardoned.

"The poor fellow was in the most forlorn condition and considering his honesty in the matter and the fact that he is very much wrought up over the shooting of his friend," this was a case worthy of all the leniency possible. I may have done wrong in the eyes of the law, but still I think I have the moral right on my side."

The minister is preparing a letter in reply, undertaking to remain at least temporarily.

NEGROES ATTEMPT TO DROWN WOMAN

YORK, Pa., Oct. 3.—A posse of farmers armed with shotguns and rifles collected at the river hills of Peach Bottom township for Charles Jamison, colored, who is charged with attacking Mrs. George Johnson of Line Bridge, and then attempting to drown her in the state quarry. Cass Smith, a companion of the fugitive, is under arrest.

The assault was committed while Mrs. Johnson and her husband were returning from a visit to Delta, this county, to their home at Line Bridge.

When her home, Johnson decided to go to the home of a sick brother and permitted his wife to continue her journey without an escort. She had not gone far before the negroes attacked her. She was assaulted and dragged by her feet almost to her home. Here she was strapped to a board, placed in a spring wagon and driven to the quarry, where her captors intended to drown her. One of the negroes lost his nerve and refused to assist with the murderous work. A girl named Mrs. Johnson managed to escape.

Both negroes were known to Mrs. Johnson and she has sworn out information for their arrest. Smith was arrested and committed to the crime, but Jamison is still at large.

CHURCH SUIT LEADS TO PASTOR'S WEDDING

PLUCKY YALE MEN TRUNK "SMASHERS"

NEW HAVEN, Conn., Oct. 3.—Two ambitious Yale men have surprised the baggage men who make their headquarters at the Union station by tackling the transfer business. As several thousand collegians are returning to the city, the two are reaping a good harvest. They went down to the scene of operations first without the formality of getting a license. The other baggage carriers made a protest, and the students complied with the law. Today they were the hardest working baggage men on the depot platform.

THE Auto-tone Piano

Naturally the first question one would ask is, "What is it?" It is what the name signifies—a piano in which the tone can be produced automatically. It is a combination of an upright piano and the newest, most complete and ingenious mechanism for producing music by means of a perforated roll. It is an ideal piano and a musician's piano on account of its beautiful touch and finely regulated hand keyboard. It is also a novice's piano because within its case are means by which all classes of music can be played without the slightest study or practice in a manner equal to that of great artists. When played by hand there is nothing about the piano to distinguish it from the usual upright.

There is no influence in a home so refining as that which is produced by good music. Until recently we have been dependent upon some member of the family to produce this refining influence, but with the advent of this new combination, the Autotone piano, it is all changed, as any member of the family above five years can play with the greatest of expression.

This great invention is being adopted by some of our most prominent educational institutions as a means of cultivating appreciation of the best class of music in the most thorough manner.

The levers seen in the accompanying cut, also the pedals and a feature for the music roll are entirely covered when the playing device is not in use.

We have a full line of these player pianos in stock; also other makes of combination pianos, including the Knabe Angulus, the highest class instrument made as a player piano. Call and investigate our line, or write for circulars. We will be glad to furnish them to you free of charge.

Senator Platt's Comical Plight.

Senator Platt is in a ridiculous yet pitiable and disgusting plight. This doddering old man, caught in the net of his own vices, the sport and prey of designing women, sits in the Senate of the United States as the representative of the Empire State of the Union, over which he reigned as a political dictator for more than a generation. His weakness for women is a byword in Washington, Albany and New York. Every newspaper office in those cities is filled with the amatory escapades of this shrewd, shift, unscrupulous politician, who has proved himself more than a match for most men, but who has again and again become the victim of women with fair forms, who showed their respect for virtue by not practicing it.

The amorous adventures of Senator Platt would fill a good sized book. Dozens of times has he narrowly escaped being made the central figure in nasty scandals, but he has, nevertheless, had the curtains raised several times on his amatory propensities. Nearly a quarter of a century ago, the transom incident in an Albany hotel played an important part in politics. It assisted in defeating Platt and Conkling, who had resigned from the Senate to manifest their pique at President Garfield, for re-election. Platt finally got a Scotch verdict of not proven, but those who knew his ways best only laughed derisively, while condemning the despicable methods employed to trap him.

The aged Senator's more recent experience with Mac Wood has furnished the country with immense amusement. Like Joey Bagstock, the old man is sly, devilish sly, but he got caught nevertheless, and had to pay dearly for his whistle. While the press of the continent was gazing at him, he married Miss Janeway, his present wife, apparently as much for protection from the Wood woman as a tenderer sentiment. She has led him a dog's life and made him a public laughing stock. She was originally a chorus girl, and has had a matrimonial experience as varied as usually falls to the lot of women who owe their advancement on the stage more to contours than genius. She has never been willing to hide her light under a bushel, and in consequence her senile husband has been subjected to some indignities peculiarly humiliating and exasperating. But it can hardly be denied that he has earned and served all he is getting.

However, the miasmatic exposure will serve one good purpose at least: it will render Platt's disappearance from the Senate, which he has neither honored nor adorned, all the more certain. The people of New York cannot stand the grotesque spectacle of this lean and slippered pantaloons clawed around and quarreled over by bold amazons as shameless as they are greedy. Platt will simply be jeered out of politics.

Governor Magoon says Chinese labor on the Isthmus is unsatisfactory. We presume his cook has struck for higher wages.

Joseph F. Smith, president of the Mormon Church, is somewhat embarrassed because one of his polygamous wives recently gave birth to a child—the forty-third credited to the venerable patriarch, by the way. The prophet, seer and revelator of the church of Latter Day Saints is evidently suspected, although he was in Europe when the stork arrived at his harem. He has been arrested because certain ill-natured people in and out of Utah persist in being offended at the sight of aged and holy men comforting themselves with more than one wife. Prophet Joseph Smith has five. This is regarded as extremely shameless by Gentiles, many of whom find one wife to be, as Ferris Hartman puts it, more as plenty. Accordingly they are loud in their complaints. They are furious at Mormonism. They say the old man ought to know better. But, candidly, could they do better? Apparently polygamy is no bluff in Utah, but it is really quite shocking, and the example of the head of the Mormon Church is extremely reprehensible. He has been guilty of contributory negligence. But for his prejudice against race suicide all would have been well, but the christening of No. 43 not only rasps on the moral nerves, but is in the nature of both a boast and a challenge to a great many. However, the old man may not be altogether to blame.

Two Sons of Alameda County.

Two of the Republican nominees for the Appellate Court in this district are Alameda county men. While Judge Carroll Cook, the nominee for presiding Justice, has long been a resident of San Francisco and is now Judge of the Superior Court in that city, he was bred in Oakland, and for many years after his admission to the bar was a resident of this city. He is thus widely known and has many warm friends in Alameda county, and hence stands before this community as a local man. He should receive a heavy vote on this side of the bay.

Judge Samuel P. Hall has been identified with Alameda county since his earliest manhood. He has been a continuous resident of Oakland ever since he began to practice at the bar. He has reared a large family in this community, in which he has held many positions of honor and trust. He served as District Attorney and was twice elected Superior Judge. He is now an Associate Justice of the District Court of Appeals, having been appointed by Governor Pardee when the court was formed. If character, judicial fitness and an honorable record count for anything, Judge Hall will receive an immense vote in Alameda county.

A London dispatch intimates that Adeline Patti is contemplating a final farewell tour of the United States. It is to be hoped that she will forego her intention, for if she carries it out she is sure to meet with disappointment and humiliation. Her last two farewell tours snowed that her charms and her voice had faded, and only the memory of her wonderful singing in past years saved her from marked expressions of disfavor. If she comes again she will find that she has worn out her welcome with her successive farewells. Patti sang in New York in 1860, and was then said to be sixteen years old, though there is abundant evidence that she was at least two or three years older. At all events she is past 62—a faded, wrinkled old woman with a cracked voice. She had better stay at home and not make a melancholy exhibition of herself.

CHEAPER AUSTRALIAN POSTAGE.

Consul-General John P. Bray of Melbourne, reports that the Australian postmaster-general has introduced a bill in parliament to provide for the establishment of one penny (2 cents) postage throughout Australia, and to such other countries as will reciprocate. It is also proposed to so reduce the existing rates on printed matter, books and magazines. The present rate on letters is one penny (two cents) per one-half ounce within the confines of a State, and two pence (four cents) to other parts of the Commonwealth.

Good Man for School Superintendent

George W. Frick, the Republican nominee for County Superintendent of Schools, is a veteran educator, who possesses an intimate acquaintance with the schools of the county and is in complete sympathy with the most advanced methods of pedagogy. He has been intimately associated with the public schools of Alameda county for a quarter of a century, and therefore is not only familiar with the functions and duties of a school superintendent, but is thoroughly equipped to perform them. Having had extended experience, both as teacher and school superintendent, he is fitted in every way to supervise the school department.

Mr. Frick was successively principal of the Castro Valley, Mount Eden, Hayward and San Leandro schools, spending the first ten years of his life as a teacher in those places. He was principal of the Tompkins school in Oakland for three years, giving up that position to enter upon the duties of County Superintendent, in which office he served from 1891 to 1895, making a record that was marked for efficiency and devotion to the interests of the schools. For the past eleven years he has been principal of the Cole school in this city, being elected to that position immediately on his retirement from the office of County School Superintendent. For twelve years he has been a member of the County Board of Education, and is regarded as one of the most thoughtful members of that body.

Mr. Frick's career as a practical teacher is proof of his worth and ability. At teachers' institutes, which he regularly attends, he is regarded as a man of sound views and progressive ideas. If wide and varied experience, learning and intellectual capacity count for anything, Mr. Frick must be regarded as eminently qualified to fill the position to which he aspires.

Mr. Frick's standing in the community is as enviable as his standing in the teaching profession. This is testified to by his membership in various societies which stand for character and good repute. He is a Past Master of the Masonic fraternity, Past Chief Patriarch and Past Noble Grand of the Odd Fellows, Past President of the Native Sons, and Junior Past Exalted Ruler of Oakland Lodge No. 171, Benevolent Protective Order of Elks. All these positions are certificates of character and personal standing, for the men the lodges honor are invariably men in whom the community can place entire confidence.

Mr. Frick is exceedingly popular among his colleagues in the school department and with his pupils. The latter speak of him with affection and respect, convincing testimony to his fitness for his profession and his cordial sympathy with the expanding ideas of the young. Mr. Frick will make an admirable superintendent of the splendid schools of Alameda county.

NOBODY BUT FATHER.

Nobody knows the money it takes
To keep the home together;
Nobody knows of the debt it makes,
Nobody knows—but father.

Nobody's told that the boys need shoes
And girl's hat with a feather;
Nobody else old clothes must choose,
Nobody—only father.

Nobody hears that the coal and wood
And flour's out together;
Nobody else must make them good,
Nobody—only father.

Nobody's hand in the pocket goes
So often, wondering whether
There's any end to the wants of those
Dependent—only father.

Nobody thinks where the money will come
To pay the bills that gather;
Nobody feels so blue and glum;
Nobody—only father.

Nobody tries so hard to lay
Up something for bad weather,
And runs behind, do what he may,
Nobody—only father.

Nobody comes from the world's cruel storm
To meet dear ones who gather
Around with loving welcome warm,
Nobody does—but father.

STAMP SALE TO BE PROBED

Mutual Insurance Buys \$11,000
Worth of Two-Cent
Stamps.

NEW YORK, Oct. 3.—A morning paper states that Superintendent of Insurance Otto Kelsey learned yesterday of a purchase by the Mutual Insurance Company last week of \$11,000 worth of two cent stamps. They were not obtained direct from the postoffice by the company, but the deal was put through with a stationer. The latter got the stamps at the postoffice and sent the check he had received from the Mutual Life to Postmaster Willcox.

What Superintendent Kelsey wants to find out and what the Mutual will be called to explain is the purpose for which these stamps are to be used. The superintendent of insurance has been advised that if the company is to use these stamps to send out campaign literature, furthering the interest of the administration's ticket, the policyholders' money is being used in a wrong manner.

Canadian Boundary is Foiled
in Montreal.

NEW YORK, Oct. 3.—It was reported among customs officials yesterday that a New York diamond dealer who arrived a few days ago in Montreal intended to smuggle across the border diamonds to the value of \$150,000. On request of E. H. Twohey, the United States customs representative in Montreal, three secret service men were sent there from New York. It is said they have been watching the suspected man.

The story states that the diamonds were cut and polished in Amsterdam, and that an English broker took them over to London, where he handed them over to the New York dealer. The latter, on reaching Montreal, learned that the secret service men were watching him, and he changed his plans. The jewels are said to be in Montreal.

WEST POINT IS PLEASED

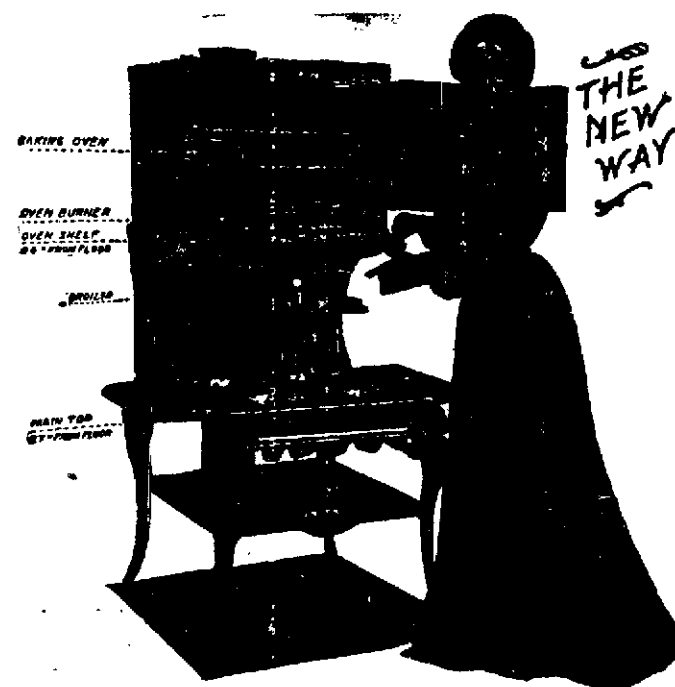

Victor in International Balloon
Race Graduate of Military
Academy.

NEW YORK, October 3.—Among fellow officers, teachers and students at the West Point Military Academy, the announcement of the victory of Lieutenant Frank P. Lahm in the international balloon race was received with great satisfaction. Lieutenant Lahm was one of the most popular men at West Point in his case days, making the football team as quarterback, and as an instructor, he was even more popular.

"It was a great victory," declared Colonel F. L. Scott, superintendent of the academy, "and I feel mighty good to think one of our army men captured a trophy for America. There is no doubt that aerostatics will play an important part in the next great war and the United States should not be behind the other countries."

RIGHT HOME

Doctor Recommends Postum from Personal Test.

No one is better able to realize the injurious action of caffeine—the drug in coffee—on the heart, than the doctor.

When the doctor himself has been relieved by simply leaving off coffee and using Postum, he can refer with full conviction to his own case.

A Missouri physician prescribes Postum for many of his patients because he was benefited by it. He says:

"I wish to add my testimony in regard to that excellent preparation—Postum. I have had functional or nervous heart trouble for over fifteen years, and part of the time was unable to attend to my business. "I was a moderate user of coffee and did not think drinking it hurt me. But on stopping it and using Postum instead, my heart has got all right, and I ascribe it to the change from coffee to Postum."

"I am prescribing it now in cases of sickness, especially when coffee does not agree, or affects the heart, nerves or stomach. "When made right it has a much better flavor than coffee, and is a vital sustainer of the system. I shall continue to recommend it to our people. Name given by Postum Company, Battle Creek, Mich. Read the little book, 'The Road to Wellville,' in linkage. 'There's a reason.'

GRACE BRYAN'S DOG CAN'T GO TO SCHOOL

ROANOKE, Va., Oct. 3.—The amiable lamb owned by Mary, and celebrated for the snowy whiteness of its fleece, fared far better from an educational standpoint than the French poodle of Grace Bryan, daughter of the Nebraska Commoner, for the poodle has been denied the right to matriculate in the little school where its mistress has been entered as a student for the present term.

All of Miss Bryan's pleadings in behalf of her pet have come to naught, and the authorities of the school have refused pointblank to enter into any negotiations, fearing perhaps that the yelps of the pup will not have the correct Parisian accent, and prove a corrupting influence among the French pupils. Miss Bryan says that there are other dogs in her family—six of them—but that her canine is the star of them all.

"I did beg to be allowed to have my dog with me," said Miss Bryan, "and although I know it is against the rules, I believe the teachers soon would have learned to love him as well as I do."

ACTOR SHOTS OFF END OF OWN BIG TOE

NEW YORK, Oct. 3.—George Kennedy shot off the end of his right great toe early yesterday morning at his boarding-house. He was treated at the Roosevelt Hospital and was as well last night as could be expected.

Mr. Kennedy had no designs on his toe, I know it is against the rules, I believe the teachers soon would have learned to love him as well as I do."

By the time the other leggers reached Kennedy's room the supposed burglar had faded away, but the toe required immediate attention.

The revolver is for sale cheap.

MINCE PIE WILL COME UNDER INSPECTION LAW

WASHINGTON, Oct. 3.—Four men representing the mince meat business were before the Bureau of Animal Industry of the Department of Agriculture today to discuss the question as to the effect and operation of the meat inspection law upon their interests. It is learned that they claim exemption from the law upon the ground that there is no little meat in their mince meat.

It is known that the mince meat of commerce is made up largely of apples and other fruits. One manufacturer states that his product contains no meat at all, and others that their mixture runs as high as 10 per cent of meat.

The mince meat containing 10 per cent of meat shall be subject to the meat inspection act, and that the pure food law is sufficient to take care of the balance.

An exception is made in the case of picklinghouse products and mince meat is subject to the meat inspection law.

SOPHOMORES
IN THE WRONG

Student Paper Gives Them a
Roast for Circulating the
Petition.

BERKELEY, Oct. 3.—The Daily Californian, published by the students of the University of California, takes the stand editorially that the sophomores who have signed the petition asking for the reinstatement of Ben Moses are utterly without justification, as Moses was dismissed on the recommendation of the undergraduate students' affairs committee, as well as the faculty students' affairs committee. The editorial characterizes the circulation and signing of the petition as a blow at student control, recently secured after years of agitation. The editorial says:

"A petition is being circulated among the students, asking for the reinstatement of Ben Moses, the sophomore recently suspended for rushing. The Daily Californian does not know whether the undergraduate affairs committee was just in its decision or not; we did not investigate the case, but this is not the question. Is the student body going to place enough confidence in this committee to abide by its decisions? Does the student body think that this committee was not acting with the best of motives? The University of California is second to no institution in the country for its progress in undergraduate government and are the students of the college to deprive themselves of one of the best institutions we have—the undergraduate affairs committee? If the undergraduates will not uphold the actions of their committee, will they lose its power because the faculty committee will deal entirely with such questions.

"The Daily Californian knows nothing about the present case, but it is willing to abide by the decision of the committee because it has confidence in its members, because it knows their first thought was the University and because it believes in undergraduate control of student affairs."

Prof. Loeb Says Many Western
Schools Are Only Mushroom
Growth.

BERKELEY, Oct. 3.—"The phenomenal development of your western country has been attended by many mushroom growths," said Professor Jacques Loeb of the University of California in his class in physiology recently. "Among professional schools, many of them have sprung up among these mushroom growths, particularly the medical colleges in San Francisco and in Oakland. The few prerequisites make a farce of many American medical colleges. It should not be necessary to teach at the medical college, basic principles that do not bear directly on the medical profession. In their haste to make a number of showing their medical colleges admit pupils that are immature and utterly unqualified to take up the work."

FATE OF RUGBY CUP
IS DECIDED TODAY

ROY ELLIOTT of the Senior Team.

Freshmen and Seniors Meet This After-
noon on California Field in
Final Contest.

BERKELEY, Oct. 3.—The freshmen and seniors meet in Rugby this afternoon on the old California football field in what will probably be the deciding game of the interclass Rugby football series.

If the seniors win the series will be ended and the championship will be theirs. As the game stands now the seniors have been victorious in one and the juniors have tied one and been beaten once. The sophomores have to their credit one game and have lost only one. The freshmen have also done. Thus the fate of the cup really depends upon the result of today's game.

The two teams should play a very closely contested match, although the freshmen may have a little the better of it owing to the extra amount of coaching which they have received, due to the approach of the intercollegiate football game. However, the seniors have been working hard and they will try to gain the championship by winning the game today.

The playing will start at 4:15. The teams are to line up practically as they have in the past.

The cup to be awarded to the interclass championship team will soon be sent out by Mr. Wolf, the donor. It is

valued at about \$50, and will be inscribed with the numerals of the winning class.

It is to be a perpetual cup, and will go to the winning class of each successive year.

Arrangements for the freshmen game are now practically completed. Tickets will be put on sale today at the Co-op, at Smith Bros. in Oakland, and at Hamersmith & Field in San Francisco. The price of all tickets will be one dollar, with no reserved seats. The special rates to Palo Alto will be \$1.10 round trip from Berkeley, and \$1.20 round trip from San Francisco, and \$1.30 round trip from San Jose.

The Stanford team will appear in red sweaters and red stockings, and the California freshmen team will wear blue. Their uniforms will not be the same as those for the varsity game on November 10.

The regulation Rugby football, which were sent for some time ago, will arrive in a day or two. California has been somewhat handicapped without them. Stanford has been playing with them all along.

The regulation Rugby ball is rounder than the old football, and it will bound and roll much truer. It is said that it is impossible to kick the new balls as far as the old ones. Coach Lanagan of Stanford, however, denies this.

FIGHT IS WON
FOR VACATION

Mid-Term Respite Begins Monday
and Teachers and
Pupils Rejoice.

BERKELEY, Oct. 3.—The teachers and pupils of Berkeley have won their fight and will now be granted their annual mid-term vacation. The triumph will probably begin next Monday and principals, teachers and pupils are jubilant. The vacation was granted last night by the board of education without even slight discussion. Director Loring moved that the vacation be granted, and the resolution giving the pupils a respite from their books was unanimously passed.

When it was first announced that the board of education had decided not to grant the customary vacation, a strenuous protest went up from teachers and pupils. Largely signed petitions from parents, teachers and pupils asking for relief from studies, were presented, but the request was ignored by the board, which adhered to its original stand.

Applications of Miss Emily Parker and Miss Lily Faulk for positions as teachers in the grammar schools were read and ordered placed on file.

C. W. Watt's bond for installing heating apparatus in the LeConte and Lincoln schools, was read and approved. The personal bond of Architect F. Voorhies, for work on the high school was accepted.

DAY SESSIONS
MAY BE HELD

Chamber of Commerce Members
Think Much Time is Wasted
at Night.

BERKELEY, Oct. 3.—That the business of the Chamber of Commerce may be transacted with greater dispatch, meetings of that body may be held in the day time hereafter. The claim is made by those who advocate the change that the business which requires two and three hours to transact in the evening can be performed in half an hour at a day session. One of the prominent members and a leading worker in the improvement cause, said today that when the business men gather in the Chamber of Commerce in the evening, there is altogether too much talking and not enough business done.

"While the exchange of ideas is good," the member continued, "it should be remembered that every night in the week is taken up with some meeting and that the long sessions are not only tiresome but keep many of the business men away from their homes at an unnecessary length of time. If there are questions of great importance to be discussed it is well to exchange ideas before meeting in the evening session, and then when the time comes for formal action the business can be carried on with dispatch."

WHAT CARTOONIST EWER SAW AT THE RINGSIDE OF THE WEST OAKLAND FIGHTS LAST NIGHT.

OF SPORTS EDITED BY EDDIE SMITH

NEW HOME FOR RELIANCE CLUB Organization Expects to Occupy Building to Be Erected in Central Location.

The Reliance Club has practically decided to leave its present location in the Armory building on Twentieth street, between Telegraph avenue and Broadway, as soon as its lease expires, which will take place on May 1, 1927.

The directors and members of the club have been discussing for some time the question of securing improved quarters, such as a handball court, swimming pool, etc., in their present quarters, or removing to another site, and falling to secure the former, have virtually decided on the latter.

The owner of the Armory building offered to install the improvements desired, but wished the club to take a five years' lease, at a rental which was considered exorbitant by the club. Several consultations were held concerning the matter, and the owner has finally announced unofficially that he will not accept the club's terms.

Hence the organization is preparing to secure other quarters, and President Walter B. Pawcett declares it has a plan in view which will be more satisfactory than the location proposed, but will say that it will be a very central one, well suited to our needs, and that the privileges offered would be satisfactory to everyone. We have until May next to get out of our present quarters, so that we have plenty of time to consummate our plans.

"Of course, I cannot go into details concerning this matter, nor announce definitely the location proposed, but I will say that it will be a very central one, well suited to our needs, and that the privileges offered would be satisfactory to everyone. We have until May next to get out of our present quarters, so that we have plenty of time to consummate our plans."

WILLIS BRITT PROMISES FINE CARD OF AMATEURS

Oakland Favorites to Appear on Friday Evening.

The Occidental Club's amateur boxing show, which will be held next Friday night at the Dreamland pavilion in San Francisco, promises to be the banner amateur show of the year. Willis Britt, president and manager of the Occidental club, is certainly offering the fans a treat to mark his introduction as a promoter of amateur boxing events. The program simply bristles with class.

First, Britt has induced George Finnigan, the sturdy bantam who swept everything before him at the St. Louis tournament in 1923, to meet Jimmy Carroll, the husky youth who cleaned up the aggregation of little fighters who entered the Olympic club's American championship last February. These boys should put up a lightning contest. Both are fast and willing and are probably the best little men in the amateur ranks.

Failing to get some of the professionals to cover his money for a fight, Fred Landers thinks he has a chance to double a thousand-dollar bank roll by getting it on Carroll's chances. Carroll is training at Croll's gymnasium with Landers. Finnigan is going to be backed heavily in this important event by his admirers in Richmond, so Landers will find no end of takers for his money.

CHARLES RILEY,
An Oakland favorite, who meets Johnnie Murphy, at "Dreamland," San Francisco Friday evening.

Three boxers well known in Oakland are on the bill as are three other men who figure to give them all they can attend to in four rounds.

Frank Flores, who boxed Jack Cordell at the Reliance club last night, is pitted against Young Choyinski, who was one of the star performers at the same show. Charles Riley, who made such a good impression on the fight fans on this side of the bay when he met Loren Brown at the Reliance club, is matched to fight Johnnie Murphy, the clever Olympic club featherweight.

Jim Bradley will hook up with Frankie Edwards, another boxer well known on this side of the bay. Edwards has defeated several high-class fighters at the West Oakland club.

The rest of the card will be furnished by George Curran and Edny Madison and Tanglefoot McGovern and Joe Dignan. Owing to the alleged unfairness of many decisions in the boxing shows held lately on the other side of the bay, Manager Britt has set about to remedy this evil. James Edward Britt will referee all contests. Jack O'Brien, who will referee from Los Angeles Friday, and Sam Berger will act as judges. This should insure fair decisions.

Baseball, as it was never played before, will be the drawing card at Idora park tomorrow morning, when the Elford Stock company, now at the Macdonough theater, will meet the Thespians from Ye Liberty. The game will be called promptly at 10 o'clock, and as both sides are to appear in grotesque costume, a large crowd is expected to cheer the actors in their efforts to indulge in the national pastime. To stimulate interest among the players, the winners are to be feted at a banquet by the losers.

Harry Bishop, "the candy kid," manager of Ye Liberty, will drive to the grounds in his auto, which has been equipped with a galling gun to ward off footpads at night. As he has been chosen to decide the balls and strikes, he deemed it wise to have the machine stationed near the home plate so the galling gun can sweep the crowd if it attempts to mob him.

ARMOR-CLAD.

W. J. Elford, of the Macdonough, who is to umpire the bases, is determined to take no chances, and will don a suit of mail. He has a vast experience in cutting players out, and, incidentally, down, and it can be safely said in passing that an tendency on the part of a ball tosser to grow rampant will be met with severity.

It has been mutually agreed that every man on both sides will be a captain. This is done to promote harmony.

At third base a keg of amber fluid will be used, and the runner who reaches that sack will be rewarded in the shape of a chest-quake. Both teams have agreed to send any actor or would-be actor to the bench who makes more than eleven runs.

That the ladies will turn out in great force to watch their favorite on the boards is undoubted. All will have an opportunity to observe those matinee idols, Franklin Underwood, Landers Stevens, George Friend, Norval McGregor, Albert Basdale and James Corrigan.

LINE-UP.

The line-up will be as follows:

Ye Liberty—J. K. Kelly, pitcher; Chas. M. Blair, catcher; Franklin Underwood, 1st b.; George Friend, 2d b.; Robert Harrison, 3d b.; George Webster, shortstop; Landers Stevens, left field; Lloyd Ingraham, right field; Frank Casey, center.

Macdonough—Charles Pyle, pitcher; Jacob Baumgartner, catcher; Oscar Gehring, 1st b.; Eugene Barton, 2d b.; Wallace Howe, 3d b.; Rupert Drum, shortstop; William Abrams, left field; Norval McGregor, right field; James Corrigan, center.

Substitutes, Ye Liberty, Frank Graham and Chas. Whitley. Macdonough—C. A. Ricks, Charles Beck, Albert Basdale, Ed Vaughan.

CHIEF OFFICER DEAD TO THE DECK

Chief Officer Stone of the steamship Signal, Captain George Moore, commanding, died suddenly of heart disease early Monday while at sea. He was in excellent health Sunday night and appeared to be all right when called to the bridge at 12 to 1 a. m. watch duty Monday morning. He dropped to the deck and died in a few moments later. The Signal is now docked at the Long wharf.

WHEELMEN PREPARING FOR
RACE FOR STOCKTON TROPHY TO BE HELD OCT. 28

ANOTHER INTER-CLUB MEET

The wheelmen about the bay and the other members of the California Association of Cyclists are planning for another big race meet to take place this month. The event will be held on the Alameda trotting track, on Sunday, October 28.

The affair is to be for what is known as the Stockton trophy and is to be a point race of twenty-five miles in relays of five miles each.

NEW KIND.

Instead of being decided in the usual manner, whereby the victory goes to the man who crosses the line in the trial relay, this race is to be decided according to the positions of the teams during the various stages of the contest. Points are to be given to the man finishing first or second in each relay, the team having the most points winning the race. Thus, a team cannot be behind the leaders for a relay and pull up to the front on the last relay by virtue of one man's efforts, and it is just as sure that one team may be declared the victor and fail to land first in any relay. If its representatives would finish second in every relay, and the first place be divided among the other teams, it would earn more points than its competitors.

THE TROPHY.

The trophy is one donated by several Stockton merchants some years ago, to be contested for annually. This race was formerly held at Stockton, but since the death accident there a year ago, that location has been abandoned, and it has been decided to hold it this year on the Alameda track. There will be five-man teams entered from the Garden City Wheelmen, Oakland Wheelmen, Central City Wheelmen, Bay City Wheelmen, New Century Club and probably the Sacramento and Stockton clubs.

The Oakland wheelmen think they have a fine chance to win. A new rider named Bassett has recently been developed and the club men are looking to him for great things. In last Sunday's race he displayed magnificent and unexpected speed, closing up a gap left by his predecessor in very short order, and leaving his opponents in the rear with great ease.

DUCKLINGS DIE WITH MOTHER AT BOTTOM

PRESQUE ISLE, Oct. 2.—Ducks are not generally supposed to be as aquatic birds, but Horace Selden, a sportsman, tells of one incident which seems to disprove the theory.

BURNS KNOCKS OUT JIM FLYNN

LOS ANGELES, Oct. 2.—Tommy Burns, champion of the heavyweight boxing championship, scored a decisive victory over Jim Flynn of Pueblo before the Pacific Athletic Club last night. Burns fought out ten minutes in the fifteenth round.

The battle was a terrific one from the start. Burns and Flynn almost cut in the fourth round, the going saving a knockout. A right to the jaw sent the Colorado fighter down soon after the beginning of the fifth. He was up in a twinkling, but another to the same spot put Flynn on his back. He rolled over and got to his feet as Referee Robinson counted ten.

And then a few seconds later went to the canvas without being struck. The referee forced him to rise, and after feinting Burns sent in a punch which put Flynn down and out. He lay on his back in the center of the ring for ten minutes.

Burns injured his left hand during the latter part of the fight and was forced to rely solely upon his right.

Burns fought a heady and shifty fight. Much of his effective work was done at close quarters.

MANY RACES AT LAKESIDE RINK

Races are following races at the Lakeside skating rink this week. Events are crowding each other, almost, and the array of contests, etc., is a notable one.

Monday evening the third heat of the much-talked-of race for the championship of the Oakland High school kept a large crowd of spectators in a delightfully excited state until its conclusion. Tonight is to be the exciting occasion of the Lakeside Skating Club, but tomorrow evening there will be a barrel race that is expected to provide more than one barrel of fun.

On Saturday evening there is to be a ladies' handicap race of one mile. Several contestants have "arisen in the land" who claim to be able to bring pain to the heart of Miss Jones, the coast champion, who will start from scratch, but the latter says her heart is as steady as her skates and that neither is subject to conquest.

OAKLAND GRABS OPENING VICTORY

Cates Twirls Fine Game and Administers a Sound Defeat to the Siwash.

The Oaks celebrated their return home yesterday with a victory. Eli Cates being the man behind the earth-works. The Siwash were the victims and they got the worst of a 3 to 2 score, after starting out in the initial spasm like forty-time winners.

And Eli has reason to be proud of his effort.

He was there, straight, place and show, and his fielding efforts in a measure emphasized the importance of his work.

Stacked up against the man who recently pitched a no-hit no-run game, was the elongated Rubie Vickers. Now Rubie is there with a wing that is capable of great things, but yesterday was not the Siwash' day, and in consequence Vickers did not shine.

Starting away with a spurt, the Indians pulled up lamentably. In the first they got a tally and it was not until the ninth spasm that they augmented the score to the second one.

In the interval the Commuters had tucked the game away.

The evening-up run came through in the second, but that 1 to 1 condition of affairs did not last long. In the third the locals sat on Vickers' delivery for three large and juicy bingles. This trio of hits netted the boys two tallies, and the lead annexed was never headed.

Every man on the Commuter line-up made a hit, excepting the twirling artist. Kane, Russ Hall's find, tipped off a coming three-bagger, while Smith of Oakland divided the batting honors with him by swinging into a double.

Cates was a trifle erratic and he is accredited, in the box score, with a wild

pitch and with hitting a batsman. Neither of these errors were costly. Bliss, who had his finger hurt in one of the last games that Oakland played with Fresno in a recent series, was back in action again. He caught a nice game, and Patsy Hackett sat on the bench and applauded the college boy. The score:

THE INDEPENDENTS OF ST. MARY'S TROUNCE THE PETALUMAS

The Independents of St. Mary's defeated the Petalumas last Sunday and defeated the home team with ease. The score was 10 to 4. The poor condition of the grounds and the high wind partially account for the ragged fielding of both teams.

The college boys hit Evans freely and opportunely, assuming the lead from the outset. Harry Krause, St. Mary's shifty little southpaw, was in exceptional form and simply toyed with the "Chickadees." Burke and Benno, formerly of St. Mary's, and Athow and Gorman of the Puck, Ryes, played with Petaluma.

Many Races at Lakeside Rink

Races are following races at the Lakeside skating rink this week. Events are crowding each other, almost, and the array of contests, etc., is a notable one.

Monday evening the third heat of the much-talked-of race for the championship of the Oakland High school kept a large crowd of spectators in a delightfully excited state until its conclusion. Tonight is to be the exciting occasion of the Lakeside Skating Club, but tomorrow evening there will be a barrel race that is expected to provide more than one barrel of fun.

On Saturday evening there is to be a ladies' handicap race of one mile. Several contestants have "arisen in the land" who claim to be able to bring pain to the heart of Miss Jones, the coast champion, who will start from scratch, but the latter says her heart is as steady as her skates and that neither is subject to conquest.

WHEELMEN PREPARING FOR
RACE FOR STOCKTON TROPHY TO BE HELD OCT. 28

ANOTHER INTER-CLUB MEET

The wheelmen about the bay and the other members of the California Association of Cyclists are planning for another big race meet to take place this month. The event will be held on the Alameda trotting track, on Sunday, October 28.

NEW KIND.

Instead of being decided in the usual manner, whereby the victory goes to the man who crosses the line in the trial relay, this race is to be decided according to the positions of the teams during the various stages of the contest. Points are to be given to the man finishing first or second in each relay, the team having the most points winning the race. Thus, a team cannot be behind the leaders for a relay and pull up to the front on the last relay by virtue of one man's efforts, and it is just as sure that one team may be declared the victor and fail to land first in any relay. If its representatives would finish second in every relay, and the first place be divided among the other teams, it would earn more points than its competitors.

THE TROPHY.

The trophy is one donated by several Stockton merchants some years ago, to be contested for annually. This race was formerly held at Stockton, but since the death accident there a year ago, that location has been abandoned, and it has been decided to hold it this year on the Alameda track. There will be five-man teams entered from the Garden City Wheelmen, Oakland Wheelmen, Central City Wheelmen, Bay City Wheelmen, New Century Club and probably the Sacramento and Stockton clubs.

The Oakland wheelmen think they have a fine chance to win. A new rider named Bassett has recently been developed and the club men are looking to him for great things. In last Sunday's race he displayed magnificent and unexpected speed, closing up a gap left by his predecessor in very short order, and leaving his opponents in the rear with great ease.

DUCKLINGS DIE WITH MOTHER AT BOTTOM

PRESQUE ISLE, Oct. 2.—Ducks are not generally supposed to be as aquatic birds, but Horace Selden, a sportsman, tells of one incident which seems to disprove the theory.

Selden was shooting grouse along the shores of a nearby pond when he saw a female wood duck in the water close to some bushes. It was a long shot and when he fired he simply wounded the bird. Thereupon she swam under the overhanging bushes and disappeared.

COCQUELICOT CLUB WINS MATCH

The interclub doubles held on the Cocquelicot Club courts Monday between the Alameda Bellevue Club and the Cocquelicot Club resulted in a victory for the latter by the score of 10 to 10. The Oakland stayers displayed excellent form throughout the day, winning easily. Much was expected of Jones and Hunt and the Mardock brothers of Alameda, both teams played far below their usual form. For and Seller of Alameda made a disgraceful showing, losing every match. The scores follow:

McSwain and Jones of Alameda defeated Jones and Ambrose, 6-4; Lowell and Francis, 6-4; Devereaux and Garrett and Heath, 6-3; M. Hotchkiss and Ray Taylor, 6-4.

Otis and Foster of Alameda defeated Correll and Heath, 6-0; M. Hotchkiss and Ray Taylor, 7-5; Devereaux and McSwain and Maria, 6-4; Jones and Ambrose, 6-2; Lowell and Francis, 8-6.

BANKERS' TRUST COMPANY
OAKLAND, CALIFORNIA

The annual meeting of the stock of the Bankers' Trust Company of San Francisco, with headquarters at 220 California, corner Twelfth and Broadway, Oakland, on Wednesday, the 11th of December, 1914.

W. T. GASTHWALT, Secy.

GARBAGE NUISANCE IS TO RECEIVE ATTENTION

Merchants' Exchange Will Make a Full Investigation and Cause Arrests.

Decisive measures against the Pacific Incinerating Company, will be the result of a directors' meeting of the Merchants' Exchange, held in the headquarters last night. J. L. De Fremery, one of the owners of the Brooklyn basin waterfront, appeared before the body, and directed attention to the shameful neglect of the corporation in allowing all manner of garbage and rubbish to cover nearly two acres of ground of the West Oakland waterfront. The only attempt, according to Mr. De Fremery's statement, to dispose of the refuse, is by burning it in the open air, resulting in a nauseating stench that prevails over all the western portion of the city, and is borne at times by high winds clear up into Piedmont.

It was also called to the fact, that although men are charged with duty by the incinerating company, to dump a load of garbage on the marsh, despite the city ordinance making it an offense to dump garbage within the city limits.

Chairman J. C. Downey, of the Merchants' Exchange, committee appointed recently by President Harry G. Williams, to look into the question reported that the immense amount of sewage emptied into the marsh lands, is blocked by refuse, and carried back by the high tides, instead of being washed out to sea.

Mr. Downey also stated that the Pacific Incinerating Company is under contract to cremate all the city garbage by the incinerating company, to slake the brick smokestack, which is down by the earthquake, and that in dumping or allowing to be dumped any garbage on the vacant lands, the members of the company become subject to arrest.

"If I lived in that region," said G. W. Arper, "and was disturbed by the nuisance, I would want out a warrant. The company is not subject to arrest. They have no right to charge scavengers for dumping garbage. It is an offense for either of them to do so. It is strange that the people of Oakland are infatuated upon, and imposed upon, by any one that takes it upon himself to do so. It is a burning shame, not that the scavengers are held up, but that such a violation is allowed. If it is necessary that the courts and the strong arm of the law be invoked, let them be."

De Fremery and Arper were both named in a speech given by the insurgents yesterday. The naval men were enthusiastic in their support, and were recognized. Good order prevailed here.

REBEL CHEERS FOR AMERICANS

Officers From Cruiser Witness Review of Insurgents and are Welcomed.

SANTIAGO, Cuba, Oct. 3.—It is reported that 2000 rebels in the vicinity of Guantanamo have refused to disarm. The situation here is still serious. The revolutionaries continue to concentrate around Santiago. They promise to disarm if General Del Castillo orders them to do so. Del Castillo has not arrived, but is expected now at any time. Officers from the cruiser Des Moines unofficially witnessed the review.

S.S.S. OUR RECORD

40 YEARS OF CURES

There is a familiar saying, and a true one, that "Time proves all things." When a medicine has stood this test for a period of forty years and is then more in popular favor than ever, there is no doubt as to its merits. This is the standard by which S. S. S. has been measured, and its record of forty years of cures fully justifies its popularity as a blood medicine. For nearly half a century this great remedy has been used in the treatment of blood and skin diseases of every character, and so satisfactory have been the results that it is now the best known and most widely used blood medicine in the world. The success of S. S. S. is based upon the fact that it has always done everything claimed for it; it has maintained the confidence of the people because it deserves it. The constantly increasing demand for S. S. S. is the result of the good words spoken of it by those who have been cured of disease by its use, and know from experience that it is the greatest of all blood purifiers. ITS FORTY YEARS OF EXISTENCE HAVE BEEN FORTY YEARS OF CURES. For Rheumatism, Catarrh, Scrofula, Chronic Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and all other diseases due to an impure or poisoned condition of the blood, there is nothing that equals S. S. S. It counteracts and drives out the germs and matter, cures the disease permanently and restores strong, robust health. Where the blood is weak or anaemic and unable to nourish the body as it should, S. S. S. supplies it with the healthful properties needed, and being a bracing, invigorating tonic it builds up the entire system. It goes down to the very bottom of all blood disorders and in this way reaches deep-seated and inherited cases, on which the ordinary sarsaparillas and tonics have no effect. S. S. S. is also an ideal old peoples' remedy, relieving the diseases and discomforts of old age and giving strength and vigor to their declining constitutions. Not only is S. S. S. certain in its results, but it is safe. Being made entirely from roots, herbs and barks of the forests and fields, chosen for their cleansing, healing and building-up properties, it acts gently and pleasantly on the delicate members and tissues of the body. S. S. S. enjoys the distinction of being the only blood medicine on the market that does not contain a mineral ingredient of some kind. If you are in need of a blood remedy do not experiment with unproved medicines, but get S. S. S., the remedy that has the endorsement of millions of people, and one that has proved its worth by its forty years of cures. All sufferers from blood or skin diseases are invited to write our Medical Department, stating their case, and our physicians will take pleasure in giving any medical advice needed, and will send our books on the different diseases. We make no charge for the advice or the books.

METCALF MAY BE SHIFTED

Talked of for Secretary of Navy Upon Moody's Retirement.

WASHINGTON, Oct. 3.—Victor H. Metcalf, Secretary of Commerce and Labor, may become secretary of the navy when the cabinet changes now contemplated by President Roosevelt are brought about by the retirement of Attorney General Moody next winter. Moody will resume the practice of law in Boston within a few months and will be succeeded as Attorney General by the present Secretary of the Navy, Bonaparte. It is the desire of the President to transfer Metcalf to the navy, department when Bonaparte becomes Attorney General and to appoint George von Meyer of Massachusetts, now ambassador to Russia, to be Secretary of Commerce and Labor, to succeed Metcalf.

It has long been arranged that Ambassador Meyer should enter the cabinet upon the retirement of Moody, and if he does not take Secretary Metcalf's place he will probably be made Secretary of the Treasury, to succeed Secretary Shaw, who has already announced his intention to retire next year.

Metcalf was a member of the committee on naval affairs during his several years' service in the House of Representatives and is especially qualified to become the head of the navy department by reason of his familiarity with its affairs.

UNION FIGHT HITS MILLS

Chicago Organizations Trying to Exterminate Each Other— Strike Ordered.

CHICAGO, Oct. 3.—A fight between the Brotherhood of Carpenters and the Amalgamated Woodworkers' International Union, with Chicago as the principal battleground, threatens to close many mills in Chicago and throw more than 8000 workmen out of employment. Each organization is determined to exterminate the other and the employers have found themselves caught between the two rival unions.

As a preliminary skirmish in the warfare they waged and were called out on strike yesterday at the plant of the Kinsey Manufacturing Company. Carpenters employed by the Brunswick-Balke-Clender Company have been ordered on strike, but woodworkers are endeavoring to fill their places.

EYE NEARLY DESTROYED BY BARBED WIRE FENCE

K. Mura, a 19-year-old Japanese student at Berkeley, while running in that town yesterday collided with a barbed wire fence and nearly lost the sight of his left eye. He placed a bandage about the wounds caused by the barbs and then rode to the Receiving Hospital in this city, where Warden Page was obliged to put nine stitches in the left eyebrow and temple. Mura lives at 415 Seventh street.

WHITE PET RAT BITES CHILD

Rodent Turns on Lad and Takes Pieces of Flesh Off His Hand.

White rats do not make excellent pets, as the parents of little 7-year-old Paul Olsen can testify. The Olsens live in Fruitvale, and it was the child's favorite time to play with the rodent. It evidently became angered last night at something Paul did to it, for it attacked the boy, whose screams aroused the mother. She rushed to her child's aid and beat the animal off, but not before it had bitten several places of flesh out of the lad's right hand. Paul was taken to the Receiving Hospital, where the wounds were cauterized and dressed. Meanwhile Mr. Rat enjoys his liberty.

LABORER INJURED IN FALL FROM CAR

John Vaga, a Greek laborer, fell from an electric car at Twelfth and Brush streets last night and was so badly injured that Police Officer Thornbury accompanied him to the Receiving Hospital, where it was discovered that he was suffering from a slight concussion of the brain. The man recovered under treatment and was allowed to depart.

PLATT GIVES HIS BIG FORTUNE TO HIS SONS

Deeds Away Property to Prevent His Wife From Obtaining Possession of It.

NEW YORK, Oct. 3.—The cauldron of the Platt domestic scandal continues to bubble merrily and interesting developments in this remarkable case are reaching the public. Senator Platt's accomplishments as a politician of course preclude all possibility of his saying much for publication. Mrs. Platt's long association with politicians, however, appears not to have taught her discretion, for she talked freely and said things that startled and interested the public. In her interview Mrs. Platt was coached by Coachman Hedges and that young man is evidently better qualified to guide horses than public opinion.

The most sensational feature of the case, however, was the announcement that, fearing suit for divorce, and in order to prevent his wife from obtaining a large settlement, Senator Platt had decided away nearly all his fortune, so his financial resources are no greater than those of a man of moderate means. Mrs. Platt has been acquainted with her husband's procedure for some time, and is at present striving to ward off possible loss of a financial adjustment in her favor.

GAVE FORTUNE AWAY.

Platt, who is a multi-millionaire, gave his fortune outright, it is said, to his three sons, after consulting his attorney. Minor sums have also been given to several grandchildren. Platt has kept for himself only a sufficient amount to defray his current living expenses. He is said to be almost wholly dependent on the salary of \$30,000 a year, which he receives as president of the United Express company. It was at Toga Lodge, Platt's villa at Highland Mills, that Mrs. Platt made her revelation to the reporters today. It may be said she resorted to recriminations. With the ever faithful Hedges standing by, she declared herself the most abused woman alive, alleging that her husband and son-in-

NO SUSPICION OF A MURDER

Family of Al Adams Insist That Policy Man Had Ended His Life.

NEW YORK, Oct. 3.—Members of the family and business representatives of Al Adams, who was found dead Monday with a bullet wound in the head, declared yesterday that after a full and careful investigation they were of the belief that not a single fact or circumstance warranted any suspicion or theory of murder. Information coming to them showed that Mr. Adams had given way to depression within the last week, although he had concealed that fact from his family, and it was all due to the unfavorable turn taken by diabetes with which he had long been affected.

Scrofula

Is very often acquired, though generally inherited. Bad hygiene, foul air, impure water, are among its causes. It is called "the soil for tubercles," and where it is allowed to remain tuberculous or consumption is pretty sure to take root.

RECRUITS TOLD TO LEAVE ARMY

Posters Tell Men Not to Endure Insults and Women to Resist Despots.

ROUEN, Oct. 3.—A large number of posters were placarded on the walls during the night, signed by the anti-military association, summoning the new recruits to desert from the army if they believed they were "unable to endure the insults, punishments and vexations of barracks life," and vowing with an invitation to the women of Rouen to form an "international society of mothers to resist the despots of the government, which is still thirsting for human blood." The police tore down the proclamations shortly after daylight.

SMITH IS KNOCKED DOWN AND KICKED

T. P. Smith, who runs a horse market at 615 Broadway, was treated at the Receiving Hospital last night for a badly contused back, the result of kicks administered in an argument, when he was knocked down and attacked by several men, among whom he says were Paul Brunel and his son, both bootblacks. When Smith recovered he was allowed to proceed to his home, 4056 Eighteenth street.

SOCIETY GIRL RETURNS FROM EASTERN TRIP

BERKELEY, Oct. 3.—After a delightful trip of three months in the east, Miss Hope White, the popular society girl has returned to the home of her parents, Mr. and Mrs. K. A. White of 4415 Fulton street. Miss White, who is a graceful equestrienne, was the motif of reception wherever she visited. Miss White was the guest of her aunt, Miss Maria Adair, of 4415 Fulton street, Grand Rapids, Mich. She also passed some time at Chicago, Detroit and watering places about Lake Michigan.
